TERSELY TOLD.

W. B. Jernigan, a prominent citizen of Pine Barren, was in the city yesterday.

The schooner Helen M. Atwood entered yesterday from New York, bringing a cargo of 20,000 bags of cement.

Capt. T. E. Welles returned yesterday morning from Birmingham and Athens, where he had been on a business trip of a week's duration.

The fishing schooners Kwasind, Minerva, Lottie S. Haskins, Persilla and Cara R. Grimes, of the fleet of Saunders & Co., entered yesterday with a total catch of 5,800 snappers.

Marshal Schad left last night for New Orleans, where he goes on a business visit. On his return he will stop at Mobile, reaching home Wednesday night or Thursday morning.

Recorder Laney had forty defendants before him in the municipal court yesterday morning for trial. Of this number four defendants were discharged, one case continued and fines imposed amounting to \$131.

Dr. J. C. Willis, of Starke, Fla., was in Pensacola last night en route home from Hot Springs, Ark., where he had come with a patient. Dr. Willis says Hot Springs is an attractive place, but he does not think it so comfortable in the summer time as the Florida sea coast. He leaves this morning for Starke.

Tallahassee True Democrat: Hon. E. D. Beggs of Pensacola made an elaborate argument before the supreme court on Wednesday in the case of the state at the relation of John Sunday, plaintiff in error, vs. W. W. Richards, tax collector of Escambia county, involving a tax title to real estate.

Southern Hotel arrivals: Roy H. Taylor, city; J. M. Withrow, Tallahassee; Mark Sheppard, New Orleans; E. C. Allen, New York; J. V. Rozier, city; W. B. Taylor, city; J. B. Lawton, Pensacola; C. B. Ferdon, Castleberry, Ala.; W. P. Fidler, Montgomery; S. W. Rogers, New Orleans; H. H. Browne, wife and daughter, Camden, Ala.; W. M. Hays, St. Louis.

In the report of the trial of the street drivers for dumping objectionable refuse on West Garden street, it was stated that the practice had been in vogue for years. Such is the case so far as the street sweepings are concerned, but the arrest of the men was not on this account, but for placing there a lot of garbage, which had been moved from a store, and which, it is stated, had no right to be placed in that portion of the city, but should have been taken to the garbage dump. Mr. Johnson, who caused the arrest of the men, stated at the time that he has no complaint to enter against the placing of street sweepings near his residence, but objected to other class of refuse.

The great popularity of Blue Ribbon Lemon and Vanilla Extracts is due to their high quality. Ask your grocer for Blue Ribbon Lemon and Vanilla. Takes less. Flavors perfectly.

FORTY DOLLARS STOLEN FROM ITALIAN

D. Mitchell, a Restaurant Man,
Was Touched for this Amount
Early Last Night.

D. Mitchell, an Italian, who conducts a restaurant at the corner of Baylen and Zarragossa streets, was robbed early last night of the sum of \$40, which he had in his cash box. The money consisted of one \$10 bill and six \$5 bills.

Mitchell and his assistants were busy about the place during the early portion of the night, when the proprietor missed one of his employees, a white man named Frank DeRoy, formerly in the navy. The latter could not be found, and when the proprietor went to see if his money was all right he was astonished to find the box empty. He immediately notified the police and asked that DeRoy be arrested. The latter had been working about the restaurant for several weeks, his duties being confined principally to delivering orders about that section of the city.

Officer Burnham found DeRoy in an up-town restaurant and took him to jail, where he was searched. Four or five dollars in silver were found in one pocket and the prisoner claimed that the silver was all the money he possessed. The turnkey continued to search, however, and finally found a small pocket covered by a belt which contained a number of \$5 notes.

DeRoy was held as a dangerous and suspicious character pending an investigation.

WESTVILLE

Special to The Journal.
Westville, July 17.—Mr. J. D. Frink, from near Prosperity, was in town Sunday.

Hon. W. H. Brett, Jr., came over Saturday and spent Sunday with home folks, returning to Bonifay this morning.

Hon. J. A. J. Hathaway was in town today, and left later for Bonifay.

The painting and repairing of the Baptist church has improved its appearance.

Died: On Sunday morning at her home near Cerro Gordo, Mrs. Louis Smith.

The Board of County Commissioners have advertised for bids for building a brick court house at Bonifay.

Rev. Wheeler preached at the Baptist church Sunday morning.

A few of our public schools have opened, but several teachers have gone into other counties to teach.

Mr. J. M. Brigan and daughter, Etta, and niece, Alma Brigan, left here one day last week for Hartford, Ala., to attend the Methodist district conference at that place.

Jesse Laster, of Freeport, and Dickson Jones, of Portland, passed through here one day last week en route home from Hartford, Ala., where they had been attending the district conference.

Mr. M. M. Owens was in town today.

Mr. E. M. Jewell was in town today.

Rev. Gale, of Jacksonville, passed through here this morning.

HAIR SOFT AS SILK.

New Scientific Treatment Kills Dandruff Germs.

It is an accepted fact, a proven fact, that dandruff is a germ disease; and it is also a demonstrated fact that Newbro's Herpicide kills the dandruff germ. Without dandruff falling hair would grow and thin hair will thicken. Herpicide not only kills the dandruff germ, but it also makes hair as soft as silk. It is the most delightful hair dressing made. It cleanses the scalp from dandruff and keeps it clean and healthy. Itching and irritation are instantly relieved, and permanently cured. There's nothing "just as good." Take no substitute. Ask for "Herpicide." Sold by leading druggists. For sale by W. A. D'Alemberte, druggist and apothecary, 121 S. Palafox. Send 10 cents in stamps for sample to The Herpicide Company, Detroit, Mich.

MALARIA UNDERMINES THE HEALTH

When the germs of malaria enter the blood, the entire health is affected, and if the blood is not purified of these germs and microbes, Chronic Sores and Ulcers, Liver Spots, Chills and Fever, Boils, Aches and Pains, and a great variety of troubles manifest themselves, and soon the entire system is undermined, leaving the sufferer a prey to a most miserable, weak and nervous condition.

913 W. Market St., Louisville, Ky.
For several years I suffered with Chills and Fever, caused by Malaria in my system, and each summer for several years I would have a relapse. Finally my physician prescribed S. S. S. I took a few bottles; this was about six years ago. It entirely cured me, and I have never been troubled since. I am sure no other medicine could have given me so complete and immediate relief, and I cannot speak too highly of S. S. S. My partner in business is now taking S. S. S. for an eruption of the skin, and a general run-down condition of the system, and although he has taken but one bottle, already commences to feel better.

I. SHAFFER.
S. S. S. counteracts and drives all the poison from the blood and builds up the system by its fine purifying qualities and tonic effects. It strengthens every part, increases the appetite, helps the stomach and digestion, and by supplying the body with rich, pure blood, cures Malaria and all its disagreeable ailments. Unlike most blood medicines S. S. S. is purely vegetable. It does not contain a particle of mineral of any kind to disagreeably affect the stomach, digestion and bowels, but by cleansing and strengthening the blood, puts every part of the body in healthy condition. Book on the blood and any medical advice desired without charge.

SSS

PURELY VEGETABLE.

200 TELEPHONES WERE DAMAGED SUNDAY

By the Severe Wind, Rain and Electrical Storm, Which Passed Over the City.

Two hundred telephones were put out of commission Sunday afternoon as the result of the severe wind, rain and electrical storm which passed over the city. In addition to this a big hole which was torn in the cable near the opera house, which contained many wires, and of course every phone attached to the wires passing through that cable was put out of business for the time being.

Not since the installation of the system in Pensacola has there been such wholesale havoc played with the service and the subscribers, who were not aware of what had occurred, were at a loss to know why their phones could not be used.

As soon as possible Manager Bache secured every available man and placed him at work getting the disabled phones in condition and repairing the lines all over the city. Before 6 o'clock last night the men had succeeded in repairing and having in good working order all but forty of the phones, and these will receive attention today.

The repairing of the wires and placing two hundred disabled phones in condition on short notice is no small undertaking, but the management and men were equal to the emergency and everything will be working as smooth as before the lightning played such havoc with the system.

Lost time is never found again, and what we call time enough always proves little enough.

Amended.

When a Scotch schoolmaster entered the temple of learning one morning he read on the blackboard, "Our teacher is a donkey."

The pupils expected there would be a cyclone, but the philosophic pedagogue contented himself with adding the word "driver" and opened the school as usual.

No Genius Wanted.

"Really, I think your son is a genius."

"Oh, don't say that! We have been hoping all along that he may grow up to be a good, sensible man and finally succeed his father in business."—Chicago Record-Herald.

Not the Only One.

Toskins—I don't object so much to Fanny kissing her dog, but I prefer her to kiss me before and not after. Wilkins—I know, but don't you suppose the dog has his preference too?—Boston Transcript.

Spoke For Itself.

Mary—Do you think it would be conceded for me to tell my friends that I made this dress myself? Edith—Not conceded, my dear—superfluous.

Human Echoes.

I don't like to talk much with people who always agree with me. It is amusing to coquette with an echo for a little while, but one soon tires of it.—Carlyle.

The man that continually says he don't care is generally the touchiest man in the whole neighborhood.—Baltimore American.

HAD EXCITING EXPERIENCE IN STORM

Five Young Men, Returning Home
from Pleasure Trip, Capsized
Off Magnolia Bluff.

Five young men, who had been spending Saturday night and a portion of Sunday fishing and enjoying an outing, had quite an exciting experience Sunday afternoon, when they were on the return trip, and had not all of them been accustomed to the water, some would no doubt have been drowned.

The party was composed of E. A. Ross, A. J. Anderson, J. B. Waddell, William Johnson and C. P. Larcom. They left here Saturday night in a large sail boat, and after spending a portion of the night and Sunday across the bay, started on the return trip early in the afternoon. When off Magnolia Bluff and about in the center of the bay the boat was struck by the storm, and was capsized, throwing the occupants into the water. All of the party swam to the upturned boat and clung to its sides as the vessel was being carried slowly towards the city. After remaining in the position for a couple of hours some of the men decided to rig up some kind of a sail. Diving under the boat they secured some canvas, which was stored there and rigged up a small sail, and were making fair progress towards the city, when they were sighted by Frank Segari. The seas were very rough, and Mr. Segari telephoned to the city and told of the upturned boat and men, and the launch Cupid, with Capt. Stearns and Engineer Williams in charge, and with Rufus Edmundson on board, went out immediately to assist them. After some trouble all were gotten on board, but the capsized boat could not be towed into port, so was abandoned.

The vessel was found yesterday afternoon near Woolsey, where it had washed upon the beach, and been pounded to pieces.

The party remained in the water for over three hours and all were chilled through when they got on board the Cupid. While in the water off the bluff a hail storm came up and the hail beat down upon the heads and faces of the men for several minutes.

BOY AGAIN LEAVES HOME

MOTHER AND FATHER OF JOHN

ING FOR HIM.

The parents of John Neely Vermillion are again searching for him, and although they have been doing so for some time they have failed to get a trace of the runaway. The boy is only about 11 years of age, and left home without giving anyone an idea of where he was going.

Some months ago, the boy, who seems to have a longing to see the world, ran away from his home, and went to Fort Barrancas, where he remained until his parents learned of his whereabouts. He was taken back home and remained there only a short time before he again left, this time taking a different route, and although the mother and father have made anxious inquiry, they have failed to get any trace of him whatever.

The boy has a scar on the left side of his face, near the chin.

A Translator's Blunder.

Jacob Boehme, the "mystic shoemaker," once wrote a pamphlet which he called "Reflections on the Treatise of Isaiah Stiefel." One of Boehme's biographers had never heard of that theologian. But he knew enough German to be aware that "Stiefel" meant "boot," and he was further misled by the fact that Boehme was a cobbler as well as a philosopher, so he made a brilliant shot and spoke of the pamphlet in question as Boehme's "Reflections on the Boots of Isaiah." In this guise it passed into several catalogues.

A Good Thing to Know.

A writer, discussing the lost art of early rising, says, "The proper time to rise is when sleep ends." That's a good thing to learn. Do you know, if we hadn't seen that in a paper we should have gone on believing that the proper time to rise was when you were right in the midst of your soundest sleep. What a blessed thing it is for this blind old world that there are some men in it who know nearly everything!

Wisdom.

The wise man when he contemplates a journey lets his wife pack and then takes her along to repack. If not, he will need a dry goods case to hold the overflow when he turns homeward.—New York Times.

Strenuous Hint.

Husband—Let me see, how long has it been since Uncle John was here? Wife—Oh, it must be several years. He was here the week after I got my last new bonnet.—Detroit Tribune.

HEAVY BLOW WAS EXPERIENCED SUNDAY

When the Wind Increased from
18 to 39 in Nine Minutes.
Little Damage Done.

A heavy blow was experienced Sunday afternoon in Pensacola, and although but few are aware of the fact the storm when at its height attained a velocity of thirty-nine miles an hour. While the afternoon had been threatening it was not until nearly 3 o'clock that the gale swept over the harbor and city, catching many small boats out in the open, and many narrow escapes from capsizing are reported.

The storm came up very suddenly, and did not allow those in boats much time to prepare for it. The wind had been blowing at a rate of 18 miles an hour for some time, and at 2:44, according to weather bureau statistics, it was registering at this rate. The next nine minutes, however, saw it jump up to thirty-nine miles an hour, an increase of twenty-one miles an hour in this short space of time.

But little damage was done to shipping interests, as there was but little timber alongside of vessels.

Approach of Storm.

Weather Observer Reed yesterday afternoon received a storm warning from the central office at Washington, notifying him of a disturbance, which at 3 o'clock in the afternoon was central in the gulf off the mouth of the Mississippi. The message was as follows:

"Disturbance apparently central in the gulf, off the mouth of the Mississippi river; its future course is uncertain. Vessels should proceed with caution from east gulf ports."

The Curve of Health.

The expression "the curve of health," which was first used by Oliver Wendell Holmes, himself a physician, indicates in modern mathematical fashion the fluctuating changes in bodily health, of which all are at times aware and which may be expressed by varying curves outlined on paper.

Many imagine that the normal state of health is best represented by a straight line. This is by no means the case. There is a rhythmic undulation in the flow of our vital force. The dynamo which furnishes the working powers of consciousness and action has its annual, monthly, daily waves, even its momentary ripples. We have our bad times and good times. Some by careful observation of the rise and fall of this curve, have so adjusted their holidays and times of rest and activity as to conserve their energies and avoid the snares of disease. It is from his knowledge of this curve that the family physician can act successfully.
